

E-commerce law — trader identity disclosure on the websites

SECTION 04-compliance-ksa TYPE document STATUS **active** OWNER Founder
UPDATED 2026-08-19

The Saudi **E-Commerce Law** (Royal Decree M/126, 1440H / 2019) and its implementing regulation require a service provider selling online to disclose its identity to consumers. Six of our legal drafts cite the law, but nothing documented the **trader-identity display duty** — the one obligation that touches flygaca.com and captadel.com directly. This document closes that gap and records exactly what is deployed.

What the law requires the store/site to show

- The provider's **name** (legal name, or trade name if registered)
- Its **address** and means of contact
- Its **commercial registration** (or equivalent authorization) data
- If VAT-registered, showing the **VAT number** on the site/invoices is standard ZATCA-aligned practice
- Plus the consumer-protection duties handled in the policy drafts (terms, refund/cancellation, complaint contact)

The deployed disclosure strings (verbatim)

Arabic:

س.ت 7030976893 — الرقم الضريبي — (BDA Company International) تشغلها شركة بدع الدولية

English:

Operated by BDA Company International (شركة بدع الدولية) — CR 7030976893 — VAT

What we never publish

- **IBAN / bank account number** — internal only (01-governance/company-facts.md hard rule); invoices carry bank details at billing time.
- The founder's national ID or personal address.

Maintenance rule

Any change to the entity's registered facts (name, CR, VAT, address) is made **first** in 01-governance/company-facts.md, then propagated to the surfaces in the table above in the same change. The footer strings in both repos must stay byte-identical to the "deployed disclosure strings" section here.

Open items for counsel

- Confirm the exact minimum disclosure set under the implementing regulation (name/CR/address vs. also authorized-representative details).
- Confirm the refund/cooling-off posture in 02-legal/refund-and-cancellation-policy-draft-2026-07-03.md (questions E1/E3 in the owner decision brief).
