RECOMMENDATION

THE CALL

Run 3 parallel pilots. Riyadh Air + PSAA + 1 warm-intro academy. Pursue Oxford and NEOM in slower lanes.

OPTIONS ON THE TABLE

Lead with Oxford Saudia

Highest brand halo, longest procurement cycle. Mercedes of Saudi flight academies.

Lead with Riyadh Air training

Newest, hungriest, maximum incentive to differentiate. PIF-affiliated.

Lead with PSAA

The pragmatic middle. Mid-size cohorts, warm-network access.

Lead with NEOM Aviation

Strategic dark-horse. Smallest scale today, biggest narrative.

Smallest reachable academy first

Fastest path to first 'yes'. No brand halo, but real reference.

Run 3 parallel pilots

Don't make it either-or. Three lanes triple your odds.

WEEK 1 Map warm-intro paths to Riyadh Air, PSAA, 2 private academies

WEEK 2 First meetings: Riyadh Air + PSAA in person

WEEK 3 First small-academy meeting; open Oxford outreach

WEEK 4 First pilot agreement signed; Riyadh Air + PSAA agreements in review

WHAT WOULD CHANGE MY MIND

- If Oxford is openly interested in week 1, escalate it to primary lane
- If Riyadh Air says '6+ months out', drop to slow lane and add a 4th warm-intro academy
- If by week 6 zero pilot agreements are signed, pause and run 5 customer-discovery calls
