UPDATED 2026-08-30

Commercial Pilot Program & Syllabus Integration for Saudi Flight Training Academies (GACAR Part 141 ATOs)

1. Executive Summary

As Saudi Arabia accelerates the **National Aviation Strategy 2030** to train over 20,000 aviation professionals, modern Approved Training Organizations (ATOs) face a common challenge: ground school attrition and cadet friction with complex regulatory exams (GACAR Air Law, Saudi AIP, Meteorology, Instrument Procedures).

Fly GACA for Flight Schools provides an end-to-end digital ground-school and regulatory enablement platform:

- Interactive Regulatory Ground Training:** Full bilingual GACAR corpus with cited question banks, flashcards, and timed mock checkride exams.
- AI Instructor (Captain Adel):** 24/7 grounded tutor that explains questions citing exact GACAR sections and AIP chapters.
- Flight School Admin Dashboard:** Real-time cohort health score, weak-area analytics, and stage-check readiness tracking.

2. ATO Syllabus Mapping (GACAR Part 141)

Training Stage	Traditional Challenge	Fly GACA Solution	GACAR Alignment
PPL Ground School	Cadets struggle with Saudi Airspace & VFR Rules	Interactive Airspace 3D tool, VMC minima calculator, Part 91 practice bank	GACAR §61.105 / Part 141 App B
CPL Ground School	High failure rate on Air Law & Operational Limits	GACAR Parts 91, 121, 135 deep dive, fuel reserve planners, weight & balance	GACAR §61.125 / Part 141 App D
Instrument Rating (IR)	Complex ICAO/Saudi IFR procedures & holding entries	Holding entry pattern resolver, Wind triangle solver, live METAR/TAF weather	GACAR §61.65 / Part 141 App C

Training Stage	Traditional Challenge	Fly GACA Solution	GACAR Alignment
AIP Saudi Familiarization	Static, dense AIP PDFs with difficult cross-referencing	Interactive Airport Directory (61 Saudi fields), Daylight curves, CTR scopes	AIP-KSA GEN / ENR / AD

3. Flight School Admin Dashboard & Analytics

The dedicated **School Admin Dashboard** empowers Chief Flight Instructors (CFIs) and Ground Instructors:

- **Cohort Readiness Tracking:** Automated readiness threshold ($\geq 75\%$ pass mark) determining when a cadet is prepared for official GACA written exams.
- **Weak Subject Diagnostics:** Aggregate performance metrics identifying cohort bottlenecks (e.g. Altimeter setting procedures, Wake turbulence separation).
- **Stage Check Endorsements:** Audit-ready progress logs verifying ground school completion prior to practical flight checks.
- **PDPL Compliant:** Full compliance with the Saudi Personal Data Protection Law with granular consent controls.

4. Enterprise Commercial Tiers

All tiers are invoiced annually by **BDA Company International** (CR: 7030976893, VAT: 311415259500003) with full ZATCA Phase 2 tax compliance:

Tier	Capacity	Key Features	Investment
Cohort	Up to 25 Seats	90-day intake access, Admin dashboard, CSV readiness export, Email support	SAR 12,500 / cohort
Academy	Up to 100 Seats	Rolling 12-month access, Co-branded academy landing, Custom pass marks, Priority support	SAR 39,000 / year
Institution	100+ Seats	Multi-campus SSO (Google/Entra ID), Custom syllabus mapping, Dedicated Account Manager	Custom Quote

5. 60-Day Pilot Program Framework

We invite premier Saudi academies (e.g., OxfordSaudia, SNAA, Tayaran Academy) to initiate a structured **60-Day Pilot Intake**:

graph LR

W1[Week 1: Setup & Onboarding] → W2[Week 2-4: Active Ground Training]

W2 → W5[Week 5-7: Mock Checkrides & Diagnostics]

W5 → W8[Week 8: Stage Check Readiness & Review]

1. **Week 1 (Onboarding):** Provisioning cohort seats via CSV, instructor admin walkthrough.
2. **Weeks 2–4 (Study & Practice):** Cadets engage with bilingual study sheets, flashcard drills, and AI tutoring.
3. **Weeks 5–7 (Mock Examinations):** Timed mock examinations with automated weak-topic detection.
4. **Week 8 (Evaluation & Transition):** Formal review of cohort pass probability, time-to-checkride improvements, and annual contract activation.

6. Next Steps & Contact

To activate the 60-day pilot cohort for your academy:

- **Commercial Inquiries:** sales@flygaca.com
- **Lead Executive:** BDA Company International, Riyadh, Saudi Arabia
- **Platform Access:** flygaca.com/schools
