

Fly GACA — Disclaimer and Educational Use Notice

SECTION 02-legal

TYPE legal

STATUS **draft**

OWNER Founder

UPDATED 2026-06-14

Document: [disclaimer-and-educational-use-notice-draft-2026-06-14.md](#) **Version:** Draft 1.0 — 2026-06-14 **Status:** DRAFT — requires review by a qualified Saudi-licensed lawyer before use.

Applies to: The entire Fly GACA website, PWA, Android application, and all content and services including Captain Adel Al. **Contact:** legal@flygaca.com | i@flygaca.com

DRAFT — requires review by a qualified Saudi-licensed lawyer before use.

This document is a working draft prepared by an AI assistant. It is NOT legal advice. It must be reviewed by a Saudi-licensed lawyer before publication. Key review points: (1) whether the disclaimer adequately reduces passing-off exposure pending the naming legal opinion; (2) whether the limitation language is enforceable under KSA consumer protection law; (3) whether specific sections should be displayed at point-of-entry rather than only on this page.

Overview Statement

Fly GACA is an independent educational platform. It is not affiliated with, endorsed by, or operated by the General Authority of Civil Aviation (GACA) or the Government of the Kingdom of Saudi Arabia.

The official and authoritative source for all civil aviation regulations, publications, and aeronautical information is always GACA — gaca.gov.sa.

Always verify against the latest official GACA publication.

منصة تعليمية مستقلة. إنها لا تنتمي إلى الهيئة العامة للطيران المدني (الطيران Fly GACA المدني) ولا تحمل أي تفويض أو اعتماد رسمي منها، وهي لا تمثل حكومة المملكة العربية السعودية.

المصدر الرسمي الوحيد المعتمد لجميع اللوائح والمنشورات والمعلومات الجوية هو الهيئة العامة للطيران المدني على الرابط: gaca.gov.sa.

يتعين دائمًا التحقق من أحدث المنشورات الرسمية الصادرة عن الهيئة.

1. Independent Educational Platform

Fly GACA is a **privately built and operated educational reference platform**. It is designed to help pilots, cadets, flight instructors, and aviation professionals in the Kingdom of Saudi Arabia study Saudi civil aviation regulations and stay current with regulatory changes.

Fly GACA is **not**:

- An official publication of, or authorised by, the General Authority of Civil Aviation (GACA)
- A service of, sponsored by, or connected to any department or agency of the Government of the Kingdom of Saudi Arabia
- An alternative to or replacement for official GACA publications, the GACA website, or official aeronautical information
- A source of operational aviation data

The use of "GACA" and "GACAR" throughout this platform is **purely descriptive** — referring to the General Authority of Civil Aviation and its published regulations as the subject matter that this platform helps users study. This use does not imply any affiliation with, authorisation from, or endorsement by GACA.

2. GACA Is the Authoritative Source

Regulations, aeronautical information publications, forms, directives, and all other official aviation documents are published by the General Authority of Civil Aviation. Those documents are the authoritative and legally binding texts.

Where Fly GACA references, summarises, indexes, or reproduces any regulatory text or official document:

- It does so for **educational and study purposes only**
- The official copy published by GACA **always prevails**

- If anything on this platform conflicts with the official GACA publication, the official publication is correct and this platform is not
 - Regulatory texts may have been amended since they were indexed on this platform; always confirm the currency of any document before reliance
-

3. For Study and Reference Only — Not for Operational Use

The content on this platform must not be used for any operational aviation purpose.

Uses that are **not permitted**:

- Flight planning or pre-flight briefing
- In-flight decision-making
- Aircraft dispatch or airworthiness determinations
- Maintenance sign-off or continuing airworthiness
- Air traffic management
- Any regulatory compliance determination with legal or operational effect

The platform is intended only for personal study, examination preparation, and regulatory familiarisation. Any professional or operational action must be based on current, official documentation from GACA and other competent authorities.

4. Aeronautical Information — AIRAC Cycle Warning

Material on this platform that is derived from or references the Aeronautical Information Publication (AIP), aerodrome information, VFR charts, instrument approach procedures, or airspace descriptions is provided **for familiarisation only**.

Such material:

- Changes on the 28-day AIRAC cycle
- May change between AIRAC cycles (SUP, AIC, NOTAM)
- Is NOT current operational aeronautical information
- Is NOT a substitute for official pre-flight documentation

Before any flight, always obtain current aeronautical information from the official sources, including current NOTAMs, ATIS, and the current effective AIP from GACA.

5. No Warranty of Accuracy, Completeness, or Currency

This platform is provided "as is". While we take care to be accurate and to reference official sources:

- We make **no warranty** that any content is accurate, complete, current, or fit for any purpose
- Regulatory documents change; indexed content may not reflect the latest amendment
- AI-generated summaries and study notes may contain errors or omissions
- We accept no liability for any loss, damage, or adverse outcome arising from reliance on content on this platform, whether for study, professional, or any other purpose

Verification against the official source is your responsibility in all cases.

6. Not Professional or Regulatory Advice

Nothing on this platform constitutes:

- Legal advice
- Regulatory advice or a binding regulatory interpretation
- Professional aviation advice
- Medical advice (including medical certification requirements)
- Financial or investment advice

For authoritative regulatory interpretations, contact GACA or a qualified aviation law professional. For professional aviation training and certification matters, consult a qualified flight instructor or GACA-approved training organisation.

7. Captain Adel — AI Study Assistant

Captain Adel is an AI-powered educational study assistant. It is designed to help users understand and study Saudi civil aviation regulations. Users should be aware of the following:

7.1 Educational Tool Only Captain Adel's outputs are study aids. They are not authoritative regulatory interpretations, legal opinions, or operational guidance.

7.2 AI Limitations AI language models can produce:

- Factual errors ("hallucinations")
- Outdated information that does not reflect recent regulatory amendments
- Incomplete or oversimplified summaries of complex regulatory provisions
- Confident-sounding responses that are nonetheless incorrect

7.3 Source Verification Captain Adel cites its sources and links to official GACA documents wherever possible. Users must independently verify all answers against the official source before any professional or operational reliance.

7.4 No Reproductive of Restricted Content Captain Adel is configured not to reproduce ICAO Annexes, aircraft Pilot's Operating Handbooks (POH), Approved Flight Manuals (AFM), or other documents that are the proprietary intellectual property of their respective owners.

7.5 Reporting Errors If you believe Captain Adel has provided materially incorrect information about a regulation, please report it at support@flygaca.com.

8. Names, Trade Marks, and Third-Party Rights

"GACA", "GACAR" (General Authority of Civil Aviation Regulations), "GACA AIP", and all related names and marks are used on this platform **descriptively only**, referring to the regulations, publications, and authority they identify. These names belong to the General Authority of Civil Aviation of the Kingdom of Saudi Arabia. Their use here does not imply any affiliation, licence, endorsement, or authorisation.

ICAO, CAR/OPS, and other international regulatory framework names are used descriptively for educational reference. All such marks belong to their respective owners.

9. External Links

This platform links to external websites including gaca.gov.sa and other official sources. These links are provided for convenience and to direct users to the official sources. Fly GACA does not control external websites and is not responsible for their content, accuracy, or availability. A link does not constitute an endorsement.

10. Limitation of Liability

To the fullest extent permitted by the laws of the Kingdom of Saudi Arabia, Fly GACA and those who operate it shall not be liable for any loss, damage, expense, injury, regulatory penalty, or adverse outcome of any kind arising from:

- Use of, or inability to use, this platform or any content on it
- Reliance on any regulatory summary, AI output, chart, aerodrome entry, or other content
- Any operational aviation decision, whether or not informed by use of this platform
- The accuracy, currency, or completeness of any content

This limitation applies to the fullest extent permitted by applicable law. It does not exclude liability for fraudulent misrepresentation or wilful misconduct.

11. Updates to This Notice

This Disclaimer may be updated from time to time to reflect changes to the platform, its features, or applicable law. Material changes will be communicated to registered users by email and noted on this page with an effective date.

12. Questions and Contact

For questions about this Disclaimer, or to report concerns about content accuracy:
