

• Live in production • Pre-revenue • Built to scale

Every Saudi regulation, one captain on the answer.

Fly GACA is an independent educational platform and open regulatory library for Saudi civil aviation — every GACAR Part and aviation document in one searchable place, in Arabic and English, with **Captain Adel**: an AI assistant that answers and cites the exact Part and section. The product is built and shipped; we're raising a seed round to convert a growing free user base into durable revenue (individuals + flight schools).

Fly GACA

SAUDI CIVIL AVIATION

To discuss the opportunity

flygaca.com · flygaca@gmail.com

Fly GACA is an independent educational platform and is not affiliated with the General Authority of Civil Aviation (GACA). We help people find and study Saudi civil-aviation regulation; we do not replace the official exam or the official source — always verify against GACA. This document is for presentation to a prospective investor; the financial projections are an assumptions-based model and are not a guarantee of future performance.
