

# Fly GACA for Flight Academies — Enterprise Pitch Deck

SECTION 07-gtm    TYPE presentation    STATUS **active**    OWNER Founder    UPDATED 2026-09-01

<div align="center">

## Modern Ground School Enablement, AI Flight Instruction & Regulatory Mastery

العرض التقديمي لأكاديميات ومعاهد الطيران المرخصة · منصة التدريب الأرضي الرقمية والتحليلات

<p align="center">     </p>

</div>

### Slide 1: The Executive Vision

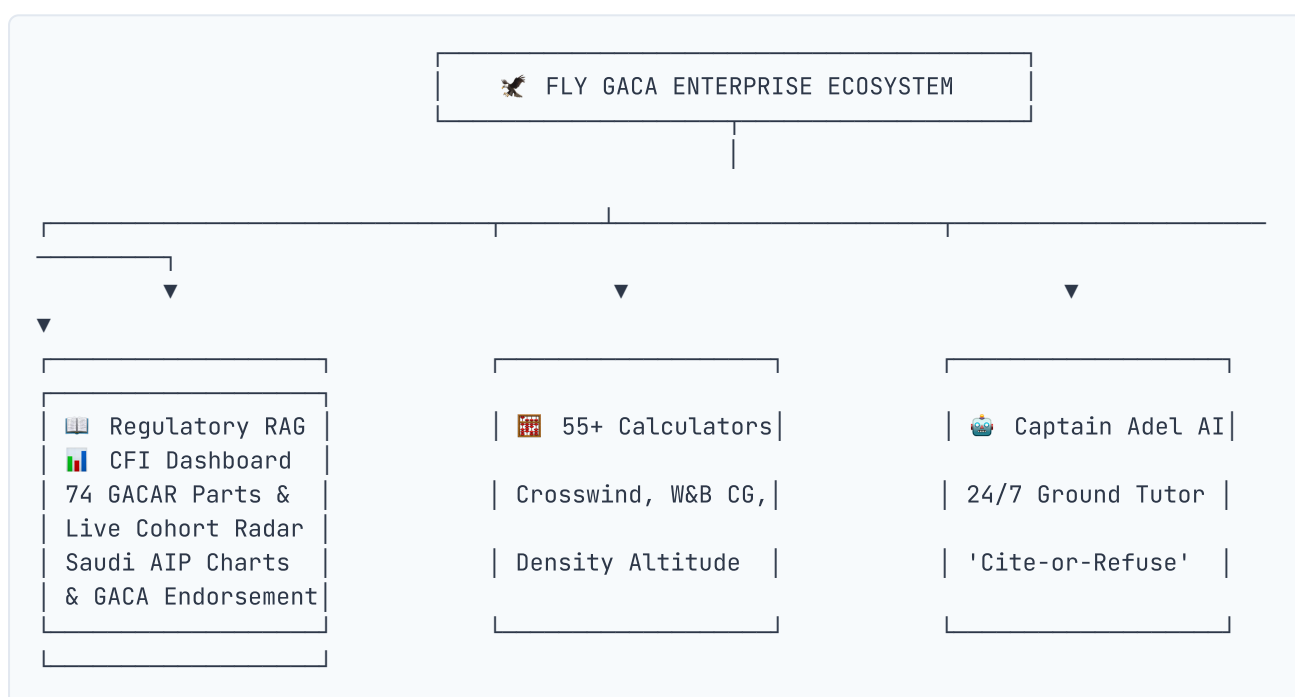

SAUDI NATIONAL AVIATION STRATEGY 2030  
Training 20,000+ Pilots & Aviation Professionals

- **Mission:** Empower Saudi Approved Training Organizations (ATOs) with the world's most advanced regulatory ground school, AI flight instruction, and cohort readiness analytics.
- **Operator:** BDA Company International (شركة بدع الدولية) — Riyadh, Kingdom of Saudi Arabia (CR: 7030976893 · VAT: 311415259500003).

## Slide 2: The Modern ATO Ground School Challenge

| Traditional Pain Point    | Operational Impact on Academy                                                    | Cadet Friction                                                                  |
|---------------------------|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Complex GACAR Air Law     | Static PDFs, difficult cross-referencing between Part 61, 91, and AIP.           | Cadets memorize without understanding; high exam retake rate.                   |
| Ground School Bottlenecks | Instructors spend 40%+ of ground school answering repetitive basic rules.        | Ground training delays delay expensive flight line scheduling.                  |
| Manual Readiness Audits   | Paper sign-offs and fragmented mock tests before official GACA exam endorsement. | Chief Flight Instructors (CFIs) lack real-time visibility on cohort weak spots. |

## Slide 3: The Fly GACA Integrated Solution

- Digital Regulatory Library:** 74 GACAR Parts indexed down to every paragraph (§61.105, §91.155, §141.67).
- 55+ Flight Deck Calculators:** Exact mathematical models for crosswind, fuel endurance, and density altitude.
- Captain Adel AI:** Grounded flight instructor available 24/7 in English and Arabic.
- Academy Admin Portal:** Real-time cadet progress tracking, weak subject analytics, and automated readiness gates.

## Slide 4: GACAR Part 141 Curriculum Mapping

-  PPL Syllabus (Part 141 App B)
  - Air Law (§61.105, Part 91 Operating Limits)
  - Flight Planning & VFR Weather Minima (§91.155)
  - Aircraft Performance (W&B Envelope, Density Alt)
-  CPL Syllabus (Part 141 App D)
  - Commercial Privileges (§61.129, Part 119/135 Scope)
  - Complex Aircraft Systems & High-Altitude Operations
  - Night VFR & Cross-Country Nav Logs
-  Instrument Rating (IR) (Part 141 App C)
  - IFR Enroute & Terminal Procedures (§61.65, §91.167)
  - Holding Pattern Entry Resolvers & Wind Triangles
  - Saudi AIP Approach Plate & Aerodrome Directory

## Slide 5: Chief Flight Instructor (CFI) Analytics Dashboard

- **Cohort Readiness Radar:** Automatic progress scoring determining when a student exceeds the 80% readiness benchmark.
- **Subpart Weakness Heatmap:** Pinpoint exact GACAR subparts where cadets struggle (e.g. Altimeter Setting Procedures vs Wake Turbulence).
- **Stage Check Digital Endorsements:** One-click audit trails verifying Ground School completion before booking practical checkrides.
- **Exportable Compliance Logs:** Instant CSV/PDF reports formatted for GACA safety audit inspections.

## Slide 6: Proven ROI & Performance Metrics

|                        |  |                       |  |                  |
|------------------------|--|-----------------------|--|------------------|
| -28%                   |  | +94%                  |  | 100%             |
| Ground School Hours    |  | First-Time Pass       |  | ZATCA & PDPL KSA |
| Saved Per Cadet Intake |  | On Official GACA Exam |  | Regulatory       |
| Compliance             |  |                       |  |                  |

## Slide 7: Enterprise Pricing & Commercial Tiers

| Tier                 | Capacity         | Key Features Included                                                                                          | Annual Investment   |
|----------------------|------------------|----------------------------------------------------------------------------------------------------------------|---------------------|
| Cohort Pack          | Up to 25 Cadets  | 90-day intake access, Admin Dashboard, CSV readiness exports, Email support                                    | SAR 12,500 / cohort |
| Academy Pro          | Up to 100 Cadets | Rolling 12-month access, Co-branded academy portal, Custom pass marks, Priority support                        | SAR 39,000 / year   |
| Institutional Campus | 100+ Cadets      | Multi-campus SSO (Google Workspace / Microsoft Entra ID), Custom syllabus mapping, Dedicated Account Executive | Custom Quote        |

All plans include ZATCA Phase 2 compliant e-invoices with QR verification.

## Slide 8: 30-Day Pilot Program Implementation Roadmap

```
gantt
    title 30-Day Academy Pilot Onboarding Schedule
    dateFormat YYYY-MM-DD
    section Phase 1: Setup
        SSO & Cohort Provisioning      :a1, 2026-09-01, 7d
        Instructor Orientation         :a2, after a1, 3d
    section Phase 2: Active Trial
        Cadet Ground School Intake     :b1, after a2, 14d
        Live Captain Adel Q&A          :b2, after a2, 14d
    section Phase 3: Evaluation
        Readiness Audit & Review       :c1, after b1, 6d
        Enterprise Rollout Sign-Off    :c2, after c1, 3d
```

## Slide 9: Contact & Next Steps
