

● BRAND SHEET ● MARK V2 — FALCON OVER KINGDOM

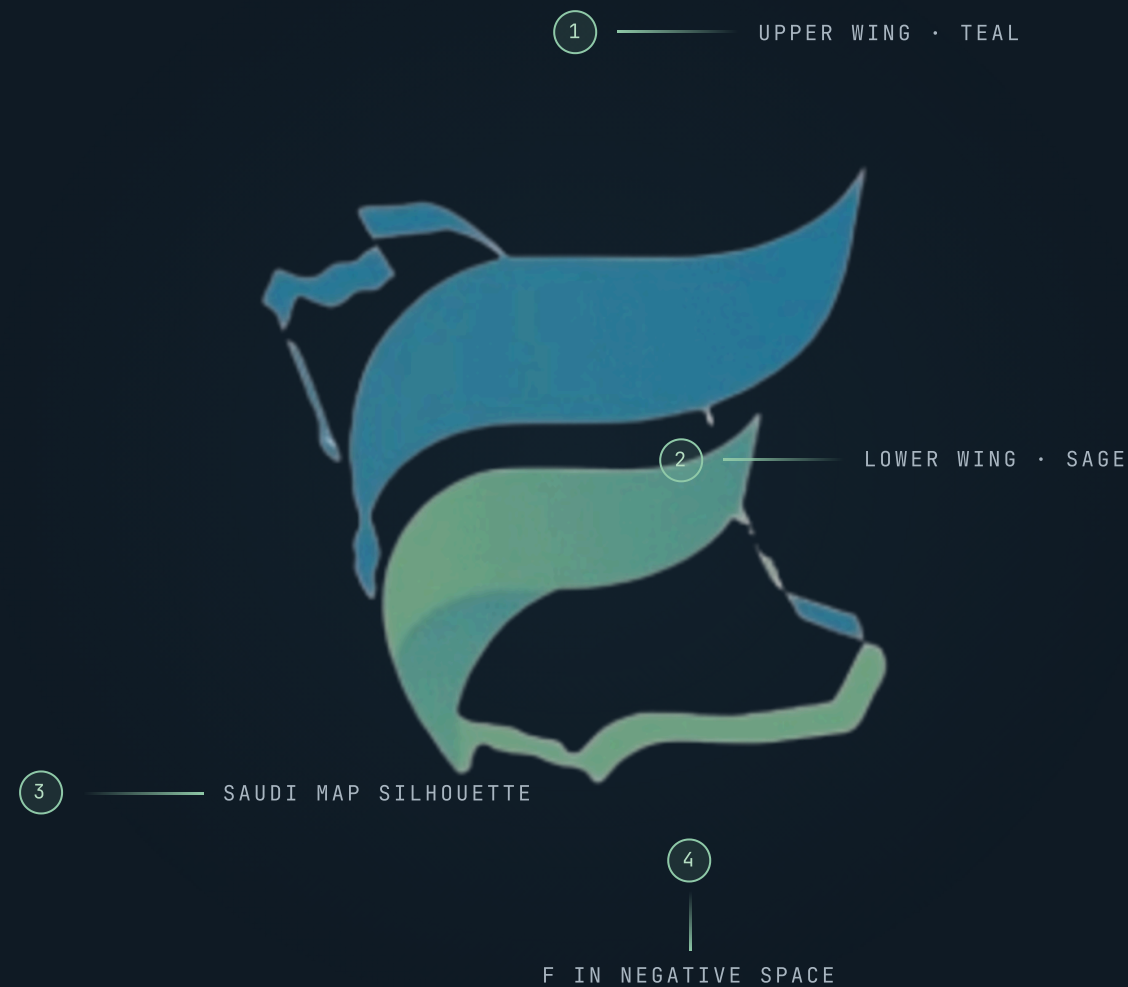

The Falcon over the Kingdom.

جناحان على شكل F
فوق المملكة العربية السعودية

The Fly GACA mark is two confident wings, set into the silhouette of the Kingdom — a falcon perched on the map it patrols. Read as the letter **F** in negative space. This sheet is the canonical reference for every appearance of the mark.

● VERSION 2.0 · RELEASED 15 MAY 2026 · MAINTAINED BY BRAND

1

Two wings, one falcon.

The teal upper stroke and the sage lower stroke are the falcon's wings in flight — the same two strokes that carry through every Fly GACA surface.

جناحان للصقر — الأعلى باللون التركوازي والأسفل بالأخضر الزيتوني — حركة طيران واحدة.

2

Shaped like the letter F.

Read the negative space between the wings and you find **F** — for *Fly*, for the airspace we live in. Quiet, never shouted.

في الفراغ بين الجناحين يظهر حرف F — اختصاراً لـ Fly.

3

Perched on the Kingdom.

The wings sit inside the silhouette of Saudi Arabia — the only airspace our 92-document library covers, the only jurisdiction Captain Adel speaks for.

يستقر الصقر داخل ظل المملكة العربية السعودية — مجال GACA الوحيد.

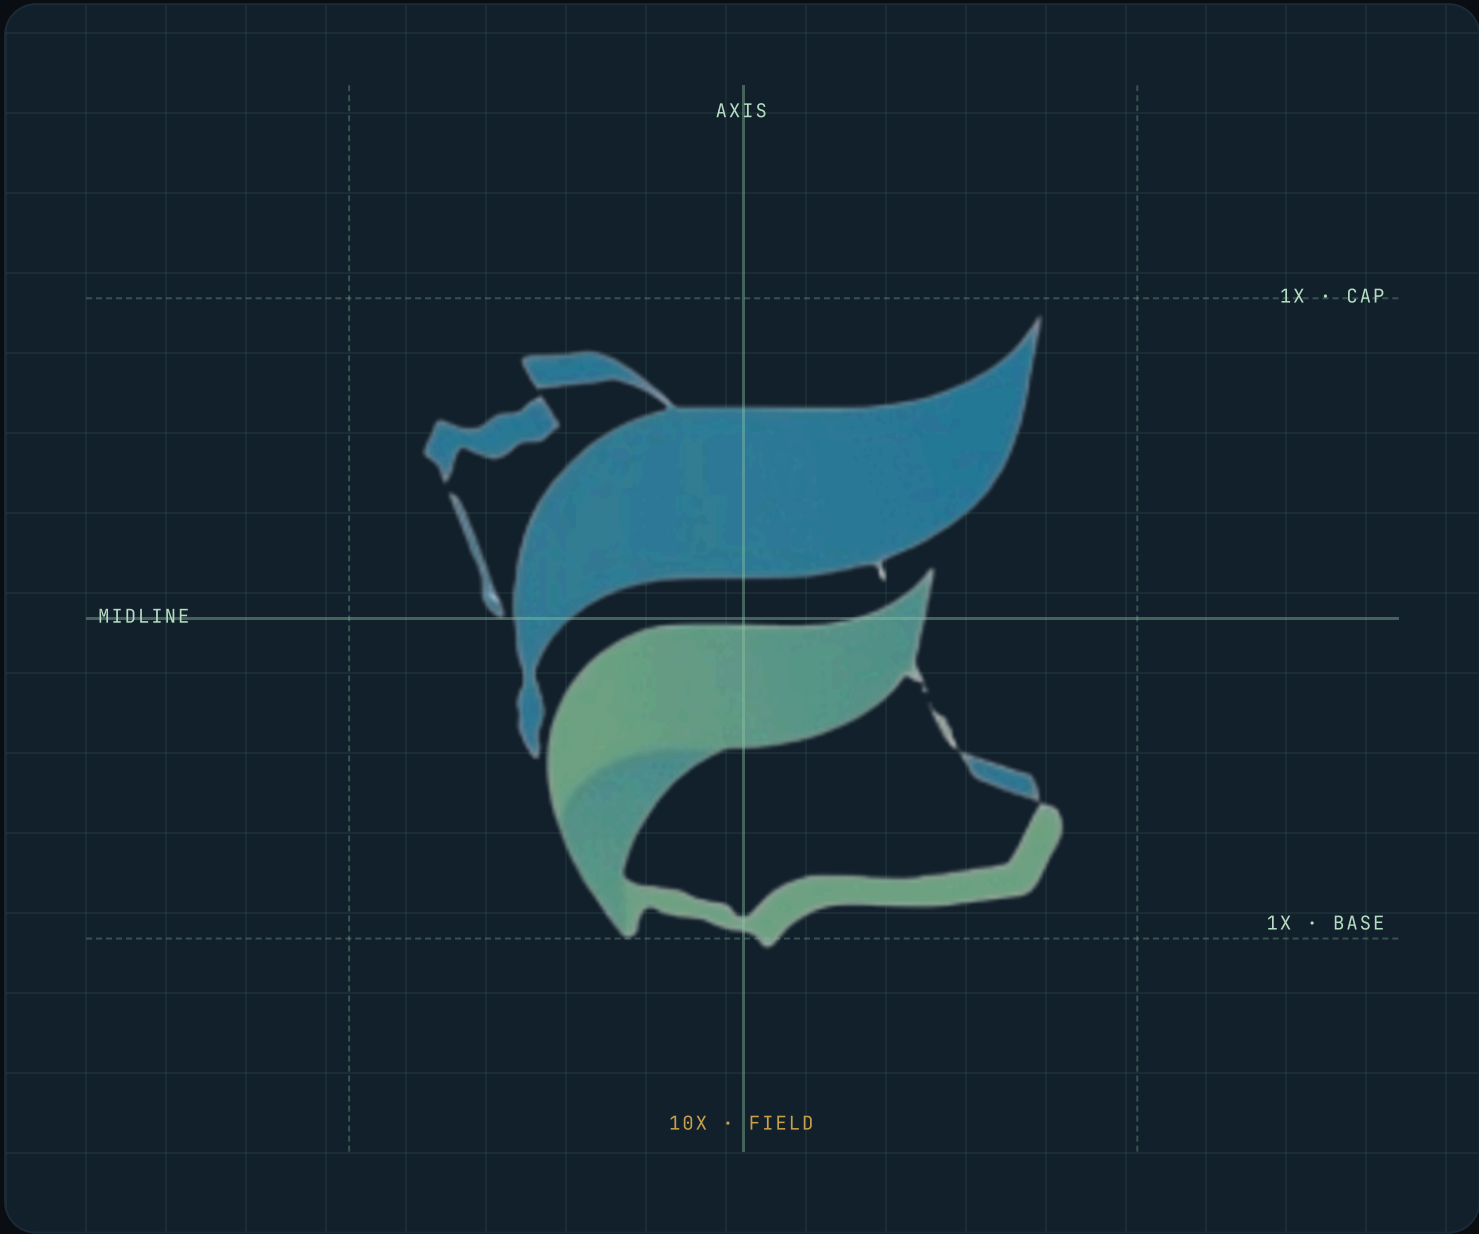

4

One stroke does the work.

No badge, no rotor, no compass rose, no pilot wings. The mark is one continuous gesture — easy to read at 16 px, dignified at 240 px.

Grid & proportions.

The mark is drawn on a **10×10 unit grid**. The Kingdom silhouette occupies the full 10×10 field; the falcon body lives in the inner 8×8 with a 1-unit safety inset on every side. All measurements that follow are expressed in *x*, where *x* = 1/10th of the mark's bounding box.

FIELD	Bounding box Saudi map silhouette · clipped artwork	10x · 10x
BODY	Falcon active area 1x inset top, bottom & sides	8x · 8x
WING ¹	Upper wing height teal, leading stroke	3.4x
WING ²	Lower wing height sage, trailing stroke	3.2x
GAP	Wing gap negative F · do not close	0.6x
TILT	Wing angle relative to map midline	+ 6°
CORNER	Tile container radius app icon / chip · optical	0.22 × side

Sampled from the falcon.

The Falcon palette is drawn directly from the mark — **teal** from the upper wing, **sage** from the lower wing, **Falcon Night** from the deck the falcon rests on. Gold is the heritage accent — eyebrows and version stamps only, never the falcon itself.

PRIMARY · DARK

Falcon Night
#0A0E12 · oklch 0.13 0.01 250
Primary canvas. The deck the falcon rests on.

BRAND

Falcon Teal
#2D6E8A · upper wing
Primary brand colour. Buttons, links, focus.

ACCENT

Falcon Sage
#8FC9A8 · lower wing
Secondary accent. Success, success-adjacent.

HERITAGE

Falcon Gold
#C8A04A · sparingly
Eyebrows, version stamps, eBook badges.

CARD · DARK

Falcon Deep
#0F1A24
Elevated card on dark canvas.

HOVER

Teal Bright
#4A9CB8
Hover, links on dark, focus rings.

LIGHT · READ

Ivory
#F5F2ED
Reading surface — documents & library.

DIVIDER · DARK

Falcon Mist
#1A2A38
Divider on dark, subtle borders.

Outside the Kingdom silhouette · canvas shows through

The mark, by surface.

The full-colour mark is the default. Mono variants exist for embossing, single-channel printing, and high-contrast surfaces. Pick the version that preserves *at least 4.5:1 contrast* between mark and background — never against busy or low-contrast canvases.

PRIMARY • on Falcon Night

ON FALCON DEEP • chat cards

ON IVORY • library & print

ON IVORY WARM • documents

REVERSE • 1-colour ivory on night

REVERSE ON TEAL • flat fill

MONO INK ON SAGE • embossing

MONO INK ON GOLD • heritage

1-COLOUR TEAL • on ivory

1-COLOUR INK • print fallback

GOLD • foil & eBook

1-COLOUR SAGE • on night

From favicon to hero.

The mark scales cleanly from 16 px to 240 px. Below 16 px we drop the inner detail and switch to the single-stroke favicon — read the design system's *falcon-mark* preview for the small-size pair.

Give the falcon room to breathe.

Minimum clear space = 1x

Where x = the full height of the mark itself. Nothing — type, photography, edges, other logos — may enter this safe area.

Minimum size • 16 px

Below 16 px, switch to the single-stroke favicon. Below 22 px on a busy background, switch to the reverse one-colour variant.

Preferred surface • Falcon Night

The mark was drawn for Falcon Night. On any other surface, check that mark-to-background contrast clears 4.5:1 before publishing.

The mark survives almost any context except these eight. If a layout requires any of them, change the layout — not the mark.

Don't stretch.
Always preserve aspect ratio.

Don't skew.
The wings stay parallel to the field.

Don't rotate.
The Kingdom is not tilted.

Don't add foreign glows.
Only the sage / teal glow tokens.

Don't outline.
The mark is solid fills only.

Don't fail contrast.
4.5:1 minimum against canvas.

Don't place on noise.
Use the reverse variant or a chip.

Don't recolour.
Only the eight approved variants ship.

The wordmark sets in **Inter Tight 700** with **GACA** gradient-filled teal → sage. The optical baseline of *Fly* aligns to the wing-gap midline of the mark. Three approved lockups follow.

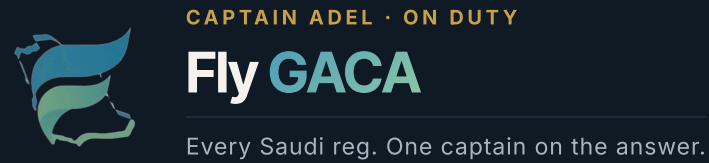

PRIMARY • HORIZONTAL

VERTICAL

STACK + TAGLINE

ARABIC • RTL

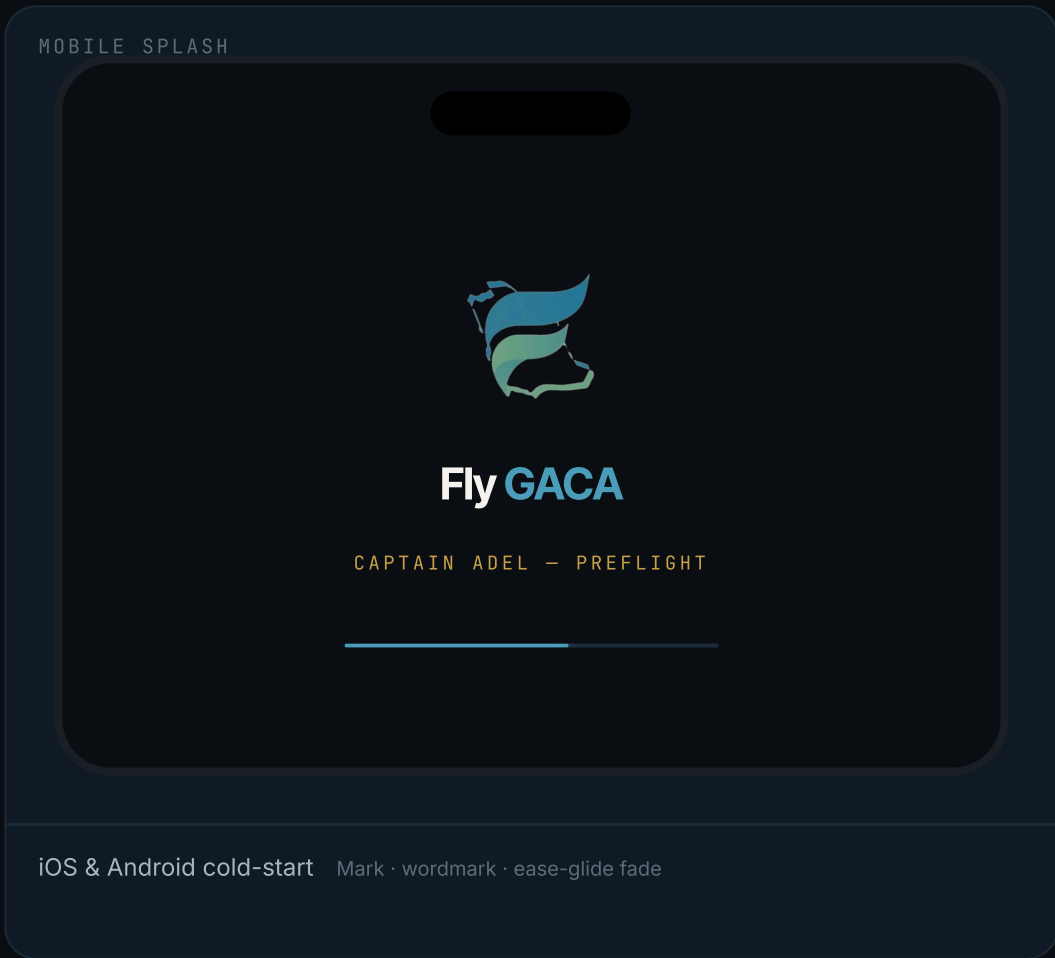

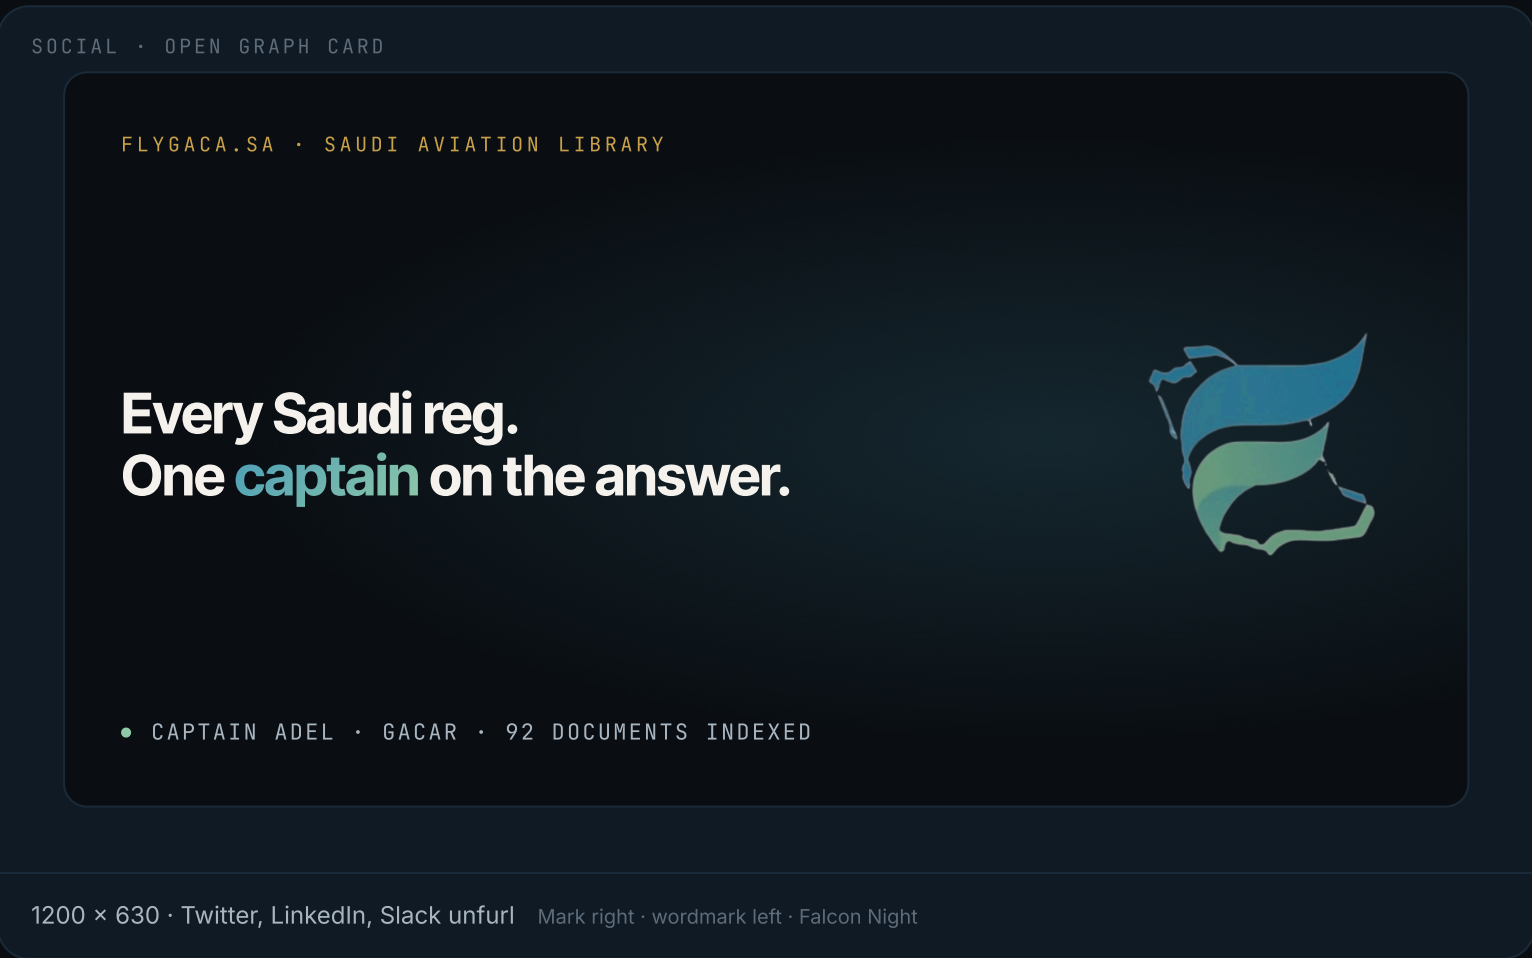

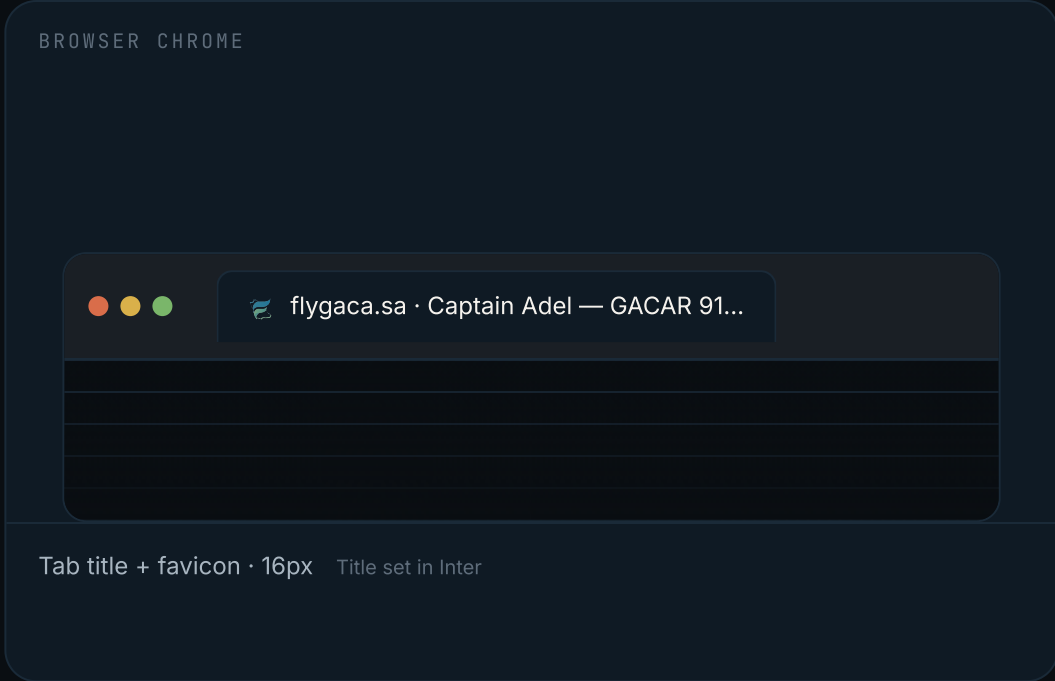

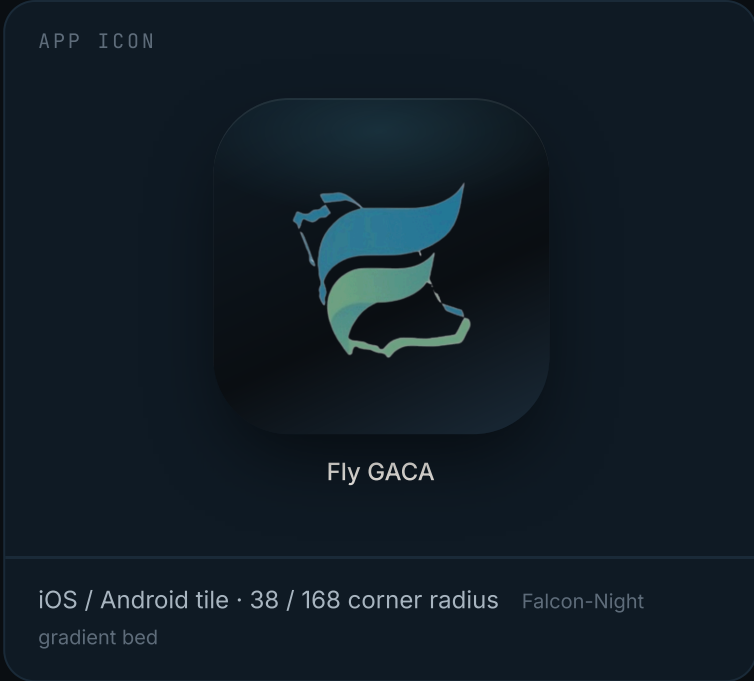

When the captain is introduced *as* the product — in welcome states, about pages, the chat sidebar header — pair his avatar with the mark using a vertical sage divider. Captain's chip on the left, mark + wordmark on the right. Same height, same optical weight.
